Everything You Need in a
Paging System and More

“The discreetness and confidentiality of a quick page goes a long way toward improving our patients’ experiences. And the fact that they’re free to roam around the facility just adds to their satisfaction.”

Everything you need in a Paging System and more

Increase Patient Satisfaction

The QuietCall paging system reduces waiting room congestion and gives patients and visitors the freedom to leave the waiting room and visit the cafeteria, gift shop and other public areas of your facility, knowing that they can be instantly contacted by healthcare staff.

Improve Communication

SmartCall pagers allow you to send specific information to patients and visitors whenever needed. You can quickly and silently send updates about procedures, ask family members to report to a department, or tell a patient that a prescription is ready.

Increase Waiting Room Efficiency

The QuietCall paging system allows you to contact patients and visitors instantly, virtually anywhere within your facility. Staff interruptions are also reduced because patients and visitors are able to stay informed without inquiring at the information desk.

Increase Patient Confidentiality

The QuietCall paging system allows you to contact patients and visitors silently and confidentially, while also decreasing waiting room congestion and noise.

A Variety of Options

Wouldn't it be great if you could customize your paging system to meet your facility needs?

QuietCall is a silent paging system similar to systems you may have seen in restaurants. It's designed to assist healthcare facilities in dealing with HIPAA compliance and confidentiality issues, as well as improve efficiencies in patient and family waiting areas. It also allows patients and family members the freedom to move around the facility and still be confident that they can be contacted at any time.

QuietCall IQ®

Wouldn't it be great if you had a simple and economical way to contact patients and visitors silently and discreetly?

- > Patient & Family-friendly paging
- > HIPAA-friendly communication
- > Improves service/care to patients
- > Automatically renumbers pagers
- > Anti-Theft feature
- > User-replaceable, rechargeable batteries
- > Smart Charging
- > PC Paging Integration

Custom labels can be ordered to display information specific to your industry.

With a touch of a button, pagers are automatically renumbered — it's that easy!

“QuietCall has had a real calming effect on our waiting room. Knowing they can be contacted immediately makes visitors and patients less anxious ... and that benefits everyone.”

QuietCall®

Give patients and family members a better healthcare experience. Lightweight hospital pagers provide the freedom to have a meal in the cafeteria, visit the gift shop, get fresh air or relax in the waiting area – without worry.

QuietCall Highlights

- > Patient & Family-friendly paging
- > HIPAA-friendly communication
- > Improves service/care to patients
- > Increases Revenue Potential
- > Anti-Theft feature
- > User-replaceable, rechargeable batteries
- > Smart Charging
- > PC Paging Integration

Text Message Pagers

Wouldn't it be great if you could send specific instructions to patients and visitors?

The QuietCall system gives updates and instructions to patients and visitors, virtually anywhere in your facility, by illuminating, vibrating and emitting a notification tone, and/or displaying a custom message on the pager. You can choose from your custom pre-programmed messages, or type an instant custom message on the keyboard. This is ideal for sending an update to someone, without requiring them to return to the information desk.

Alphanumeric four-line customizable text messaging. Custom messages can be sent from the convenience of your PC.

SmartCall®

- > Sleek, durable design
- > Durable belt clip with necklace lanyard option
- > Custom messages up to 64 characters
- > Eight factory-programmed preset text messages up to 31 characters
- > Flash, vibrate and tone options
- > Long-lasting, rechargeable NiMh batteries with up to three years life
- > Pagers are fully charged in two hours for 48 hours of continuous use
- > Side button allows alert to be cancelled and power to be turned on/off
- > Out-of-range melody and message notification
- > Auto-locate feature
- > No monthly service fee

Pagers are charged using twelve or six-slot charging stations.

The Belt Clip Pager easily attaches to the user's belt or pants.

SmartCall® Disc Pager

- > Sleek, durable design
- > Custom messages up to 64 characters
- > Eight factory-programmed preset text messages up to 31 characters
- > Flash, vibrate and tone options
