

Healthcare Staff Paging System Push Button Paging

Notify your Staff Efficiently at the Push of a Button

HME Wireless Push Button Paging solutions allow for clear, instant and direct communication between staff members throughout your healthcare facility. Wireless transmitters can be placed virtually anywhere to help speed processes, improve efficiency, and enhance patient care.

Armed with compact pagers, doctors are able to call for, and receive, prompt assistance from support staff. Push Button Paging also enhances communication between departments. For example, an optician can page a technician or receptionist when an exam is completed, and keep more patients moving through quickly. Completely wireless for maximum convenience, the system is simple to install and operate.

Push Button Paging allows for “one touch” instant communication with key staff members.

Push Button Paging Highlights

- ▶ **Concise, Specific Messaging**
Immediately direct staff to specific rooms and reduce delays.
- ▶ **Office-Wide Coverage**
Wireless transmitters ensure far-reaching, reliable coverage throughout facilities.
- ▶ **Easy Installation & Operation**
Pre-programmed and customizable system allows for plug-and-play installation and operation.
- ▶ **No Middleware**
Direct transmitter to pager communication increases efficiency and saves money.
- ▶ **Individual & Group Messaging**
Communicate specific requests to both individuals and assigned groups for increased efficiency.
- ▶ **Streamline Patient Flow**
Immediately communicate patient status between departments for faster movement.
- ▶ **Calm, Stress-Free Environment**
Instant, silent and discreet paging eliminates noisy overhead systems, enhances patient experience.
