WIRELESS®

Onsite Paging

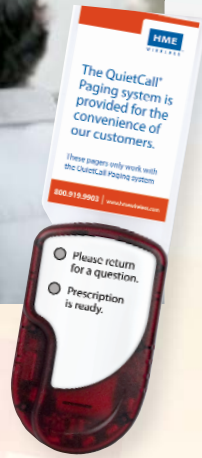

Pharmacy Paging System

For happier customers and healthier profits.

What's good for the customer is good for business. And with QuietCall Messenger, you can better manage customer expectations, to deliver a better pharmacy experience. Waiting customers are alerted with a specific message — either their prescription is ready, or to return to the pharmacy for a question. No longer are they disappointed, thinking that their prescription is filled just because the pager vibrated. Cuts down on delays too. And because those waiting for prescriptions are free to shop throughout the store without worry, you'll increase sales. QuietCall Messenger eliminates long lines and distracting overhead — creating a calmer atmosphere around the pharmacy.

QuietCall Messenger lets customers know exactly why they are being paged and what they should do.

QuietCall Messenger

The pager flashes and vibrates to notify the customer with a specific message — either their prescription is ready, or to return to the pharmacy for a question.

QuietCall Messenger Highlights

- > **Specific, Hassle-Free Messaging**
Fewer delays and faster turnaround on orders keeps customers happy.
- > **Anti-Theft Feature**
An out-of-range alert reduces theft and lost pagers.
- > **Industry-Leading Reliability**
Made from the highest quality parts for proven performance.
- > **Easy to Replace, Rechargeable Batteries**
Change your own batteries quickly and conveniently to lower costs.
- > **Cost-Saving Charging**
Significantly extends pagers' battery life without overcharging.
- > **HIPAA-Friendly Communication***
Silent, confidential paging ensures customers' privacy is protected.
- > **Promotional Messaging Drives Sales**
Inform waiting customers of special sales and promotions while they shop to spur sales.
