

Staff Paging System Healthcare Paging

Improved Staff Communication Enhances Patient Care

HME Wireless staff paging systems allow for quiet, confidential communication between hospital personnel, and improve overall communication within your facility. Instant, descriptive text messaging ensures that key personnel are reached quickly, and with just the right message, to improve response times and efficiency.

Staff paging from HME Wireless allows for dynamic communication that can be updated as critical situations evolve. These compact, convenient pagers eliminate the distraction of noisy overhead systems, and ensure that communication between staff stays private and discreet. Best of all, enhanced communication and coordination between hospital staff means better overall care for patients.

SmartCall staff pagers help personnel to communicate silently and confidentially, and with specific text messaging that helps coordinate better care for patients.

Staff Paging System Highlights

- > **Clear Text Messaging**
Ensures that key medical staff are getting just the right message; eliminates confusion and increases efficiency.
- > **Dynamic Updates**
