

FOR IMMEDIATE RELEASE

Faast Pharmacy provides customers with a shorter wait time, complete confidentiality, and the ability to shop with medical paging from HME Wireless

Listed as one of the “500 fastest growing businesses in America” in 2010

Atlanta, GA—July 25, 2011—Faast Pharmacy located in NW Bakersfield, California has implemented [medical paging](#) systems from HME Wireless. The pharmacy is very involved in the community and offers support to local businesses. With the use of Guest Call LTD pagers, the pharmacy is able to offer top notch service to the patient.

Customers receive a pager when they drop off their prescription. With the Guest Call LTD pager in hand, the customer is free to walk around the store. As a result, their name stays completely confidential and doesn't have to be called out over an intercom system for others to hear.

“It is a different level of service, and in the pharmacy world the service is the only advantage that we are able to have” noted Steve Ragsdale, store manager of Faast Pharmacy. “Insurance controls the pricing but being able to offer better service and a personal experience gives us an advantage.”

Making [wireless paging](#) available to customers not only helps the customer but is also good for business. Customers are more willing to walk around and shop. With the wireless pagers, customers feel more at ease because they know they will be alerted as soon as the prescription is ready.

“We are honored that Faast Pharmacy chose our [wireless paging system](#) to provide top quality service for their customers,” said Russ Ford, Vice President of HME Wireless.

For more information on Guest Call pagers from HME Wireless, call (866) 611-4202 or visit www.hmewireless.com.
