

**FOR IMMEDIATE RELEASE**

**Fleet Landing restaurant of Charleston, SC, bolsters efficiency and keeps dining room full with restaurant pagers from HME Wireless**

*Downtown waterfront attraction enjoys improved range and reliability with HME Wireless restaurant pagers*

*Atlanta, GA—September 22, 2011*—Fleet Landing has announced the implementation of GuestCall LTD [restaurant pagers](#) at its popular waterfront location in downtown Charleston, SC. The new [restaurant paging systems](#) have had an immediate impact on the restaurant’s efficiency, and its ability to deliver customer-friendly service to waiting crowds.

“We absolutely have noticed a difference,” said executive assistant Sarah Nielsen. “Efficiency is a main part of our business, and the [pagers for restaurant](#) allow us to turn tables quickly and keep the restaurant full. It pays for itself 10 times over!”

Nielsen noted that Fleet Landing made the switch to HME Wireless after experiencing range and reliability issues with a competitive system. Those issues are no longer a problem.

“The fact that we were coming in behind a competitive product puts a great deal of pressure on us,” stated Russ Ford, Vice President of HME Wireless. “We are thrilled that we have exceeded expectations and are delivering on our promise of a better solution for the restaurant and their guests.”

“It’s such a reliable product,” Nielsen said of the new HME Wireless [restaurant paging system](#). “I wanted something that really alerted the customers they were going off. It’s a great system and we’re really thankful for it.”

With the improved range and reliability of the GuestCall LTD [restaurant pagers](#), Fleet Landing is able to reduce walk-aways. And because the [café pagers](#) make the restaurant more efficient, customer wait times are also reduced — and that keeps customers satisfied (and satisfied customers are return customers).

For more information of restaurant paging systems and complete onsite paging solutions from HME Wireless, call (866) 611-4202 or visit [www.hmewireless.com](http://www.hmewireless.com).

**About HME Wireless, Inc.**
