

FOR IMMEDIATE RELEASE

Northland Church says QuietCall church paging system from HME Wireless helps give congregants with small children peace of mind

15,000-member church embraces technology, from online services to on-site paging for members.

Atlanta, GA—June 23, 2011—Northland, A Church Distributed, has announced the addition of QuietCall [nursery pagers](#) from HME Wireless at its Longwood, Fla., campus. Northland is led by senior pastor Joel C. Hunter and webstreams its services live to worshippers around the globe.

“We wanted to reassure parents that they would be able to worship here without distraction,” said Debbie Blahnik, Director of Children’s Ministries at Northland’s Longwood site. “The [nursery pagers](#) help us create a safe environment where parents know they can be contacted instantly—and discretely—should their children ever need them.”

Northland worships at three sites in Florida, as well as “house church” locations throughout the world. Its Longwood location features a huge, 3,000-seat sanctuary, hence the need for a [church paging system](#) with enough range to handle the workload. Blahnik noted that the pagers are working flawlessly, with no networking or connectivity issues. Users are also appreciating the enhancements of digital technology, with easy-to-see numbers that light up on the side of the pager. Church Nursery paging systems are a vital part of any large campus environment, allowing parents to be located anywhere, not just in the main worship service.

Having a solution like HME Wireless on-site pagers allows parents the ability to roam freely without ever missing an important message about their children. “We have seen a big increase in [church paging systems](#) over the past several years” stated Russ Ford, Vice President of HME Wireless. “Children’s safety is on every parents mind and we at HME Wireless are committed to delivering solutions which help deliver on that promise to parents.”

Blahnik praised [HME Wireless](#) for its service quality, citing it as one of the main reasons they chose HME for the nursery pagers. “They have wonderful, very fast service,” she said. “And they’re very dependable.”
